EEStor Private Placement Now Available Through Stockhouse Deal Room

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE U.S.

Toronto, Ontario – January 15, 2016 - EEStor Corporation (TSX VENTURE:ESU) (“EEStor” or the “Company”) is pleased to announce that its previously announced non-brokered private placement of units is now also available for subscription through Stockhouse Group’s recently launched Deal Room. Each unit is priced at \$0.15 and consists of one common share and one common share purchase warrant. Each share purchase warrant entitles the holder to acquire one additional common share at a price of \$0.30 for a period of 36 months from the closing date of the offering. Participation in the private placement through the Deal Room is restricted to, and subscriptions will only be accepted from, investors who qualify as accredited investors under applicable Canadian securities laws.

The Stockhouse Deal Room is an online private placement investment platform that enables Canadian accredited investors access to private placements which they may view and subscribe for using online forms.

Ian Clifford, founder and CEO of EEStor stated: “EEStor is very excited to participate in the launch of the Deal Room platform and as a public issuer we welcome this “21st century” platform as a new means to engage with accredited investors online.”

About EEStor Corporation

The Company’s mission is to be the provider of leading edge electrical energy storage and related capacitor technologies. The Company operates on the principle and belief that a fundamental breakthrough in energy storage will be the catalyst for positive environmental and economic change globally. The Company’s current business strategy is focused on licensing and partnership opportunities across a broad spectrum of industries and applications building on its recent technology achievements related to capacitors.

The Company holds an approximate 71.3% as-converted equity and voting interest and certain technology rights to a solid-state capacitor and related energy storage technologies currently under development by EEStor, Inc. The acquisition of the controlling interest in EEStor Inc. aligned the businesses of both companies and now allows EEStor Corporation to benefit from other revenue streams that should be available to EEStor, Inc., including applications throughout the capacitor industry and not limited to high density energy storage applications.

The Company’s success depends on the commercialization of the technology developed by EEStor Inc. and there is no assurance that it will be successful in the completion of the various enhancement phases to warrant the anticipated licensing opportunities in the technology. Readers are directed to the “Risk Factors” disclosed in the Company’s AIF.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
