## **EESstor Retains Investor Relations Firm**

**Toronto, Ontario – March 22, 2016** – EESstor Corporation (TSX VENTURE:ESU) (“EESstor” or the “Company”) announced today that, subject to regulatory approval, it has retained Transcend Capital Inc. (“Transcend”) to develop and implement an investor relations program for the Company. Transcend, with offices in Vancouver, British Columbia, is a full-service investor relations firm that assists small and mid-cap public companies with market awareness campaigns and helps these companies gain valued industry exposure through an extensive network of retail and institutional clients. Mr. Etienne Moshevich is the sole owner of Transcend.

Transcend will provide comprehensive investor relations services to EESstor for an initial period of 24 months, subject to earlier termination in certain circumstances. Transcend is to be paid declining monthly fees aggregating C\$190,000 for the 24 month term of the agreement, exclusive of applicable taxes, and is entitled to be reimbursed for reasonable expenses incurred. Transcend and its directors, officers and employees own common shares of EESstor aggregating less than 4% of the number of outstanding shares.

### **About EESstor Corporation**

The Company’s mission is to be the provider of leading edge electrical energy storage and related capacitor technologies. The Company operates on the principle and belief that a fundamental breakthrough in energy storage will be the catalyst for positive environmental and economic change globally. The Company’s current business strategy is focused on licensing and partnership opportunities across a broad spectrum of industries and applications building on its recent technology achievements related to capacitors.

The Company holds an approximate 71.3% as-converted equity and voting interest and certain technology rights to a solid-state capacitor and related energy storage technologies currently under development by EESstor, Inc. The acquisition of the controlling interest in EESstor Inc. aligned the businesses of both companies and now allows EESstor Corporation to benefit from other revenue streams that should be available to EESstor, Inc., including applications throughout the capacitor industry and not limited to high density energy storage applications.

The Company’s success depends on the commercialization of the technology developed by EESstor Inc. and there is no assurance that it will be successful in the completion of the various enhancement phases to warrant the anticipated licensing opportunities in the technology. Readers are directed to the ‘Risk Factors’ disclosed in the Company’s AIF.
