## **ZENN MOTOR COMPANY MAKES AVAILABLE DENNIS ZOGBI INTERVIEW**

**Toronto, Ontario – December 23, 2014** – ZENN Motor Company Inc. (TSXV: ZNN; “ZENN” or the “Company”) today announced that in an interview with Neil Linsdell of Industrial Alliance Securities, Mr. Dennis Zogbi elaborated on the EESstor technology and opportunities as discussed in the December 17, 2014 Paumanok Publications, Inc. (“Paumanok”) report. This thirty minute interview is now available on the website [www.eestor.us](http://www.eestor.us).

### **About ZENN Motor Company Inc.**

ZENN's mission is to be the provider of leading edge energy storage solutions and related technologies. The Company operates on the principle and belief that a fundamental breakthrough in energy storage will be the catalyst for positive environmental and economic change globally. The Company's current business strategy is focused on licensing and partnership opportunities across a broad spectrum of industries and applications building on its recent technology achievements in the capacitor industry.

The Company holds an approximate 71.3% equity and voting interest and certain technology rights to a solid-state capacitor and related energy storage technologies currently under development by EESstor, Inc. (“EESstor”). The acquisition of the controlling interest in EESstor aligns the businesses of both companies and now allows ZENN to benefit from other revenue streams that should be available to EESstor, including applications throughout the capacitor industry and not limited to high density energy storage applications.

EESstor's capacitor and energy storage technology is still under development and a number of further development milestones must be achieved before commercial viability can be fully established. There are significant risks associated with the development of new technologies such as EESstor's capacitor and energy storage technology and readers are directed to the “Risk Factors” disclosed in ZENN's most recent Annual Information Form filed on SEDAR.
