ZENN MOTOR PROVIDES DIAMETER OF TESTED EESTOR LAYERS

Toronto, Ontario – December 18, 2014 – Further to the press release issued by ZENN Motor Company Inc. (TSXV: ZNN; “ZENN” or the “Company”) yesterday announcing the results of independent testing of the capacitor technology developed by subsidiary EESstor Inc., it has come to the attention of the Company that the area of the EESstor samples tested and referenced in the Intertek Test Report were not published with the thicknesses of the layers. The Company confirms that all sample layers provided to Intertek for testing (including the six layer part) were 1 inch in diameter. Intertek intends to update its report to include this information.
