

ZENN Motor Company Inc.  
Toronto, Ontario, Canada  
(TSXV: ZNN)

## **ZENN MOTOR COMPANY COMMENTS ON ADDITIONAL EESTOR TEST DATA**

**Toronto, Ontario – June 27, 2013** – ZENN Motor Company Inc. (TSXV: ZNN; “ZENN” or the “Company”), announced that EESstor, Inc, (“EESstor”) released additional test data regarding its electrical energy storage unit. The additional information provided the dimensions of the layer previously tested on June 5, 2013. A representative of the Company was not present during this testing.

The testing completed on June 5, 2013 and June 26, 2013, is helpful in that it provides insights into EESstor's progress and achievements to date. Importantly, the EESstor press release also confirms that EESstor continues to work towards more comprehensive testing as required under the April 22, 2013 agreement entered into by the Company and EESstor. The Company intends to comment on results when the full testing and certification is done under the April 22 agreement. It is pleased to see that EESstor continues on the path towards more disclosure and the use of independent testing firms.

### **About ZENN Motor Company Inc.**

The Company's goal is to be the provider of leading edge power storage solutions and related technologies to the transportation industry. The Company also holds an equity interest in EESstor, Inc.

EESstor's electrical energy storage units (“EESU”) which are under development have the potential to enable OEM and Tier 1 partners to deliver advanced electric transportation solutions to their customers. The Company's Technology Agreement with EESstor provides certain exclusive rights to purchase and deploy EESstor's EESU technology which has been filed and is available for viewing on SEDAR at [www.sedar.com](http://www.sedar.com).

### **EESstor Information**

Information contained in this release relating to EESstor, Inc. or the energy storage technology being developed by EESstor has not been reviewed by EESstor and EESstor does not assume any responsibility for the accuracy or completeness of such information.

Unless otherwise indicated, public disclosures by EESstor of developments in the commercialization of its energy storage technology have not been independently verified by ZENN. EESstor’s energy storage technology is still under development and a number of further development milestones must be achieved before commercial viability can be established. There are significant risks associated with the development of new technologies such as EESstor’s energy storage technology and readers are directed to the “Risk Factors” disclosed in ZENN’s most recent Annual Information Form filed on SEDAR.
